St Mary of the Angels Beaufort

The news that residents from St Mary of the Angels in Beaufort were to be moved out to local communities galvanised parents and relatives to fight for the residents of this wonderful facility which offers residential living environment for those with intellectual disabilities in Kerry. The group was founded in 2016 to fight the HSE's plans and their hugely successful campaign led to an undertaking from the HSE that no resident will move out of St. Mary of the Angels against their will and residents will only move if they and their family members agree that it is in their best interests.

In 2017, the group started an ongoing campaign to raise funds to be used for improving the lives of those at St. Mary of the Angels and in the past two years they have led major refurbishment at the Beaufort facility.
